HOW IT WORKS

All related accommodation costs such as rent, utilities, cleaning and any other services you or your staff require can be bundled into a single payment, delivering the convenience you would expect from serviced apartments or hotels.

CAS will also manage the furniture rental programme (including electronics and housewares), allowing your staff to individually choose their own temporary living environment. This rates highly in any process of accommodation selection and staff really appreciate the facility. Items such as bedding types, work desks, housewares and special requirements are all possible with Complete Accommodation Solutions.

Management of utility hook-ups and monthly bill paying, cleaning and audiovisual packages are all typically included. When the term ends we will handle the disconnection of all services, pick-up the rental furnishings and hand the property back to the owner or their agent.

Consolidated billing and regular reporting are also a feature of Complete Accommodation Solutions.
